COVID-19 PUBLIC HEALTH NOTICE

September 8, 2020 – Swinomish Public Health has confirmed **zero (0)** new cases of COVID-19 in the last 24 hours.

When should I be tested? COVID-19 testing recommendations depend on many factors. Here are some general guidelines you can use to determine your need for testing:

- Every 7-14 days, depending on the risks you take on a daily basis.
- If you have been exposed to someone with COVID-19, it is best to wait five days after the time of exposure. This is generally how long it takes before testing can detect the virus.
- Traveling or participation in high-risk events? Test five days after and retest 14 days after.
- Swinomish is not limiting testing for community members. If you would like to talk with a provider about your individual situation, please call us at (360) 466-3167.

The Medical Clinic is offering COVID-19 testing drive-thru for the community **TODAY** September 8 from 9 am-1pm in the Medical Clinic parking area.

Daily Data Dashboard

	Positive	Hospitalizations	Deaths
Swinomish	18	5	2
Skagit	1,050	93	22
Whatcom	1,145	84	39
