

ON-SITE SEPTIC PERMIT APPLICATION POLICIES

1. All designs for on-site sewage systems shall be prepared and submitted by a civil or sanitary engineer, certified designer, or registered sanitarian. A resident owner of an existing or proposed single-family residence may design or repair a conventional gravity system for that residence, if such a system meets or exceeds all the requirements in "Design Standards for On-Site Sewage Systems," as published and amended from time to time by the Washington State Department of Health or in "Criteria for Sewage Works Design", as published and amended from time to time by the Washington State Department of Ecology.
2. All designs for on-site sewage systems **MUST** clearly identify the following elements on the submitted site plan:
 - a. Property boundary lines
 - b. Location of all surface water
 - c. Location of active and decommissioned wells
 - d. Location of any existing sewage disposal systems
 - e. Location of water supply line(s)
 - f. Location of all structures
 - g. Location of shoreline(s)
 - h. Location of all soil test holes
3. Soil tests **MUST** be performed by a civil or sanitary engineer, certified designer, soil scientist, or registered sanitarian.
4. Soil logs shall have a minimum depth of **60 inches** or reach ground water, whichever distance is less, and shall note the texture, appearance, and type of soil according to the most recent "Soil Survey of Skagit County Area, Washington" as published by the United States Department of Agriculture.
5. The person evaluating the soil and site shall record the following:
 - a) A minimum of two soil logs at each proposed disposal and reserve site(s)
 - b) The ground water conditions, date of the observation, and the anticipated maximum height of the ground water table
 - c) The general topography of the site by drawing arrows on the site plan indicating the direction of slope;
 - d) The drainage characteristic of the site

FOR STAFF USE ONLY

Attached Supporting Documents

____ Site Plan (2 copies)

____ Soil Log (2 copies)

____ System Design Drawings (2 copies)

INCOMPLETE APPLICATIONS WILL NOT BE ACCEPTED
